PROFESSIONAL SUMMARY

Cybersecurity graduate (B.Tech CSE) with hands-on SOC, VAPT and GRC experience: a Wazuh SIEM detection lab mapped to MITRE ATT&CK, VAPT on 10+ systems and web applications (15+ medium/high findings), and a simulated ISO 27001 ISMS. CEH, CND and ISC2 CC certified.

TECHNICAL SKILLS

Security Operations: SIEM (Wazuh), Log Analysis, Windows Event Logs, Alert Triage, Incident Response, Threat Detection
Vulnerability & Pen Testing: VAPT, OWASP Top 10, Nmap, Burp Suite, OWASP ZAP, Metasploit, Wireshark, Kali Linux
GRC: ISO/IEC 27001:2022, Risk Assessment, Statement of Applicability, Gap Assessment, Internal Audit, Security Policies
Frameworks & Networking: MITRE ATT&CK, TCP/IP, DNS, DHCP, VLAN, Firewalls, Endpoint Security; Python (security automation)

CERTIFICATIONS

- Certified Ethical Hacker (CEH), EC-Council
- Certified Network Defender (CND), EC-Council
- Certified in Cybersecurity (CC), ISC2
- IBM Penetration Testing & Threat Hunting | Cisco Networking Academy (Network Defense, SOC Operations) | OSForensics Triage (Passmark)

EXPERIENCE & TRAINING

Cybersecurity & Ethical Hacking Training, Apponix Academy, Bengaluru **Apr 2025 – Jun 2025**

Tech: Network Security Fundamentals, Vulnerability Assessment, Penetration Testing Basics

- Completed an intensive 3-month hands-on training program covering network security fundamentals, vulnerability assessment and penetration testing basics, through 20+ hands-on labs.

Cyber Security Intern, Futurense Technologies, Bengaluru **Jun 2024 – Oct 2024**

Tech: Nmap, Burp Suite, Wireshark

- Conducted VAPT on 10+ systems and web applications over 5 months using Nmap, Burp Suite and Wireshark, identifying 15+ medium/high-risk vulnerabilities.
- Triaged security alerts and escalated suspicious activity to senior staff with documented findings and resolutions.
- Supported security audits by keeping security documentation accurate and up to date.

PROJECTS

SOC Home Lab: Attack Detection & Custom Correlation Engineering **GitHub**

Tech: Wazuh 4.9.0, Docker, VMware Fusion, Windows 11, Kali Linux, Windows Event Logs, PowerShell, SMB, MITRE ATT&CK

- Built an isolated SOC lab (Wazuh SIEM via Docker, Windows 11 and Kali Linux VMs); detected SMB brute-force (4625) and obfuscated PowerShell execution (4688), mapped to 3 MITRE ATT&CK techniques (T1110.001, T1059.001, T1027).
- Found Wazuh's built-in brute-force rule used an 8-attempt/240s threshold with no MITRE mapping; engineered a tuned custom correlation rule (local_rules.xml) with a 5-attempt/60s threshold, per-source-IP grouping and T1110.001 tagging.
- Validated the rule with live NetExec SMB attacks (fired correctly at level 12) and a 3-attempt negative-control test (correctly did not fire); published the full attack chain, rule rationale and test evidence to a public GitHub repository.

ISO 27001 ISMS Implementation (Simulated GRC Project) **GitHub**

Tech: ISO/IEC 27001:2022, Risk Register, Statement of Applicability, Excel, Markdown, GitHub

- Built a simulated ISMS for a fictional 50-person FinTech: 20-asset inventory with C/I/A scoring and an 18-risk register (5×5 methodology) with residual risk and treatment plan.
- Mapped risks to Annex A controls; produced a 93-control Statement of Applicability, 7 policies, a gap assessment, and a mock internal audit (4 findings) with corrective action plan.

Vulnerability Assessment Automation **GitHub**

Tech: Python, OWASP ZAP, CSV, Matplotlib

- Automated web vulnerability scanning (spidering and active scan) with OWASP ZAP and Python, with CSV export and Matplotlib risk charts; reduced manual scan setup and reporting to a single script run.

NetShield: Two-Factor Authentication System

Tech: Python, PyUSB, Face Recognition

- Built a two-factor authentication system in Python combining real-time face detection with USB-device verification (PyUSB).

EDUCATION

B.Tech, Computer Science & Engineering (Cybersecurity), Jain (Deemed-to-be University), Bengaluru | CGPA: 7.0 **2025**

Diploma, Computer Science, Swami Darshanand Institute of Management & Technology, Roorkee **2022**
